## Clay Crackle Planter Pots

If you haven't already, you have to check out these cool little 4¼" Clay Crackle Planter Pots (SKU#: 133363). When they arrived, we went nuts for them... not only do they make good-looking planters (available in three colors: green, blue, and white), but we immediately found a slew of other uses for them, making them a great find for just a buck each! Here are some ideas from our staff:

- The most obvious use is as a planter. The crackle finish makes a beautiful statement on your porch or patio. Plus, you can fill it with greenery or colorful flowers — either looks great!
- Hosting a garden party, backyard BBQ, or pool party? Fill these planters with rocks or floral gems, add one of our solar-powered garden lights, then place them around your outdoor space for some ambient lighting.
- Fill the planters with ice and use them outdoors to keep your bottled drinks cold — great for dinner parties on the patio or drinks by the pool.
- Display the planters indoors, either empty or filled with plants or flowers, for a decorative touch.
- Use the planters around the house for unique and creative storage. Store markers, colored pencils, and paintbrushes in your craft room. Store garden tools in your garage. Fill them with hand towels or toiletries and place in your bathroom for a shabby-chic storage solution.
- Use a planter as a base for a cool gift basket or party favor. Need some gift basket ideas? Hunt for our **Themed Gift Basket Tutorial** on this month's Value Seekers Club page.
