

Fancy Flatware

Is your flatware falling, well, flat? Here's a quick and easy way to jazz it up by adding some color... and did we mention how affordable it is? Plus, it's easy to change out the colors so you can match it up to your seasonal décor, your party themes, or even your mood.

Shop at Dollar Tree – Here's What You'll Need:

- Flatware
- Nail Polish in Your Choice of Color(s)

Easy Step-by-Step Directions:

1. Paint several layers of nail polish on the handles of the flatware until you reach your desired depth of color. Be careful to paint the nail polish only on the handles, leaving the areas that touch food or your mouth free of polish.
2. Allow the nail polish to dry thoroughly. Then set your table and enjoy! Keep in mind that while the nail polish is water resistant, it isn't dishwasher safe, so be sure to hand wash.

Fun Tips:

- This is a great idea for matching your flatware to a party theme, a wedding color scheme, your dining room décor... the possibilities are endless.
- One set of flatware can create endless looks — when you are ready for a new look, just remove the color with nail polish remover and start all over with a new color.
- If you have a lot of creative flair, don't be afraid to experiment... add polka dots, designer stripes, or wild animal prints for some extra excitement.
