

Tip

Easy Icing Piping Bags

Unless you own a bakery, or you are a professional cake decorator, you may find it difficult to justify spending money on an entire cake decorating kit just to frost a dozen cupcakes. As a value seeker, you'll be glad to know that for just \$2 you can create your own piping bags and decorate your next confectionery creation. Plus, clean up is simple — just throw away the empty bag!

Shop at Dollar Tree – Here's What You'll Need:

- Zipper Seal Plastic Bags
- Rubber Bands

Easy Step-by-Step Directions:

1. Put your icing into one of the bottom corners of the zipper seal bag.
2. Get all of the extra air out of the bag and wrap the rubber band around the bag, just on top of the icing portion.
3. When ready to decorate, simply cut the tip off of the corner of the bag and squeeze away.

Fun Tip:

- For writing on your cake or decorating with small lines, cut a small hole in the corner of the bag. For covering a large area or decorating with a large line, just make the hole larger!
