

Decorative Wall Flower

If you're like us, you are constantly looking for unique decorations to help cover those bland walls at home. Here is a simple and affordable project that'll put a gorgeous piece of abstract art right on your wall... and can you believe it's made from toilet paper rolls? Best of all, you can customize it to fit your own style and color pallet for a one-of-a-kind look. Recycle and reinvent for a truly remarkable end result!

Shop at Dollar Tree – Here's What You'll Need:

- Toilet Paper or Paper Towel Rolls (center cardboard piece)
- Fast-Drying Glue (such as Super Glue)
- Paint

Easy Step-by-Step Directions:

1. Cut the cardboard centers of each toilet paper roll into 1" sections.
2. Glue each 1" section together to create the shape of a flower, star, or vine pattern (you can crease the cardboard into a teardrop or oval shape like we did, or keep them round).
3. Paint to match the décor in your home (we used silver for an antiqued shabby-chic look).
