- Vase
- Glass Luster Gems or River Rocks in the Color(s) of Your Choice
- Flowers
- Water
- Votives to Decorate the Table (optional)

Easy Step-by-Step Directions:

1. Clean vase well.
2. Separate flowers into individual stems (if you purchased “bush” style flowers) and trim any frayed edges with sharp scissors.
3. Bend the stem of each flower so that it has a wide, flat base to stand on.
4. Place flower into vase, making sure the top of the flower is at least a half-inch below where the water surface will be.
5. Use the luster gems or rocks to hide and weigh down the base.
6. Carefully pour the water into the vase, being sure not to pour directly on your flower.
7. Surround the vase with candles for an elegant, finishing touch.
