

Organizing Idea

Ice Cube Jewelry Drawer Organizer

If it's supposed to be the "lazy days of summer," why are you running faster than you did during the rest of the year? From work and parties to getting the kids to swim practice and camps, not to mention all of your out-of-town guests, there's barely enough time to get yourself together!

Save time and frustration by organizing your jewelry drawer with ice cube trays. Line up earrings to matching necklaces, bracelets, and rings for no-fuss accessorizing. Spend less time creating the perfect summer-ready look and more time enjoying the season!
