

Mini Tealight Lamps

Evening parties could always use a little romance. Whether you use these on your tables or place as a “night light” in the bathroom for guests, their romantic simplicity is sure to win your guests over... and the less than \$3 total price tag will be a great bonus!

Shop at Dollar Tree – Here’s What You’ll Need:

- Stemmed Wine Glass
- Poster board or Card stock
- Small Hole Punch
- LED Tealights

Easy Step-by-Step Directions:

1. Cut a circle out of your poster board or card stock (to give you an idea of size, we used a dinner plate as a template).
2. Using the top of your wine glass as a template, cut a hole into the center of the poster board circle.
3. Cut the resulting donut shape into thirds (this makes shades for 3 lights).
4. Use the hole punch to create a decorative pattern in your shade. (Tip: draw out what you want on the inside of the shade to plan out where to punch.)
5. Overlap and tape or glue straight edges together. Place an LED tealight into the glass and place your shade on top.
6. Repeat for the other 2 tealights.

Fun Tip:

- Want your lampshade to have a fun pattern or design? Easy! Just glue wrapping paper to the top of your poster board.
