

# Football Tablecloth

First-round-draft-quality food deserves a table to match. Bench your usual tablecloth and turn your table into a football field! Once the fans are gone, just fold up the mess and toss it out.

## Shop at Dollar Tree – Here’s What You’ll Need:

- Brown Packaging/Craft Paper
- Masking Tape
- Correctional Fluid or White Paint

## Easy Step-by-Step Directions:

1. Roll the paper out on your table
2. Tape straight, evenly spaced lines across the shorter width of the table. (Fun Tip: extend the tape beyond the edges of the paper to keep your table covering in place on outdoor tables!)
3. Use white paint or correction fluid to paint yard line numbers down the table.
4. Decorate the table with a foam football or two for that extra game-day effect.
