Large Popsicle Snowflakes

Even if you don't have a white Christmas, you can still have a pretty snowfall inside the house! These giant snowflakes would look great hanging from the ceiling over a coffee table, displayed in the window, or hanging on a mirror. Plus, they'll look great all winter long... even on those rare warm days that melt the real stuff!

Shop at Dollar Tree – Here's What You'll Need:

- Popsicle sticks
- Glue
- Paint
- Fishing Line

Easy Step-by-Step Directions:

1. Glue popsicle sticks together in snowflake shapes. Start with a six pointed star shape or a hexagon and then relax, have fun, and use your imagination!
2. Once the glue is dry, decorate the popsicle snowflakes to match your décor... paint them, cover them in glitter, add rhinestones, or leave them plain!
3. Hang with fishing line from the ceiling, in windows, or mount on the wall.
