

U.S. Bank Global Corporate Trust Services

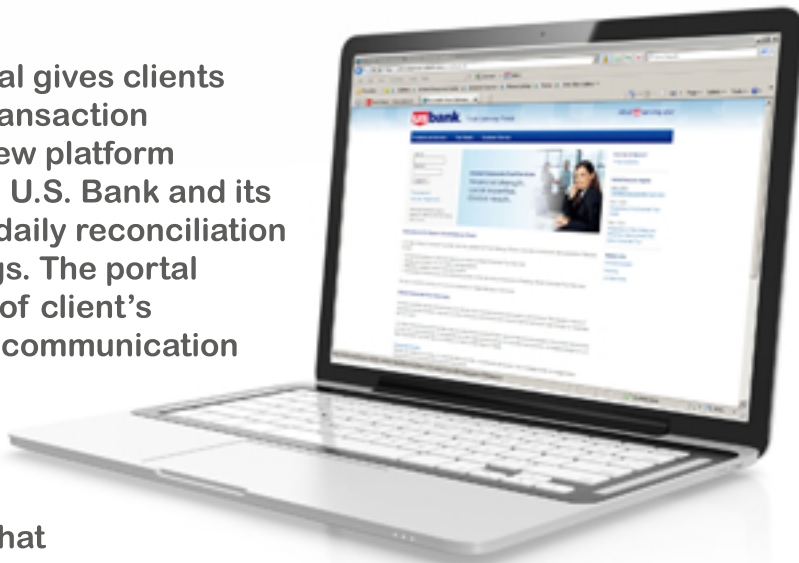

Financial strength. Local expertise. Global reach.

U.S. Bank launches Trust Gateway Portal- a best in class technology solution for our clients.

The recently launched Trust Gateway Portal gives clients online access to their portfolio data and transaction documents via a single online view. The new platform provides an easy to use interface between U.S. Bank and its clients and facilitates file sharing such as daily reconciliation files, monthly reports and portfolio holdings. The portal streamlines the day-to-day administration of client's portfolios by simplifying data delivery and communication between U.S. Bank and its customers.

Features of the new service include:

- Secure access to deal documents (e.g. loan agent notices, daily reports that detail cash balances, holdings data and trade activity)
- Online interface for asset managers to upload files for communication and storage
- User-friendly functionality with advanced search features
- Automated alerts when files are uploaded to the system

The system significantly reduces email traffic and reduces the need to store large data files. The Trust Gateway Portal provides an additional technology solution to clients, furthering the commitment of the U.S. Bank Global Trust Services – Europe team to providing best-in-class solutions.
