\*Financials were impacted by the email attribution tracking issues that are currently being researched. See the Appendix for the September 2023 Performance Summary.

- Delivery increases were impacted by more mail volume for some Engagement and Partner campaigns, as well as some Partner and Brand campaigns that were not in market in Q3 2022. Additionally, the Q3 Global Promo Announcement mailed as a solo this year, while last year it mailed in Core MAU.
- CTR of 0.8% was a slight -0.1 pts. decline QoQ and YoY; overall engagement was mostly steady.
  - YoY increase in clicks impacted by Promotions and Partner campaigns, as well as Project MAX.
- Unsub rate of 0.26% was correlated with our recent audience growth and increased enrollments.
- Financials saw mostly increases due to the Q3 2023 Global Promo and Points Promo, bookings from Project MAX (a one-time send), and increased bookings from some Lifecycle and METT campaigns compared to Q3 2022.

# Mostly Steady QoQ CTR With Increased Deliveries

- The YoY delivery increase this quarter was impacted by larger campaigns that saw more mail volume – Moments (+13.0 M), Core MAU (+9.4 M) and Boutiques (+8.9 M), as well as campaigns that did not mail in Q3 2022 – Project MAX (34.0 M), Campaignlette (19.5 M), Hertz Solo (4.6 M) and RCYC (6.9 M). Additionally, Q3 Global Promo Announcement mailed as a solo (40.9 M) in Aug this year while last year it mailed in Sept Core MAU.
  - QoQ delivery increase primarily due to Project MAX (34.0 M) and Campaignlette (19.5 M) which were one-time sends in Q3
  - Some of the MoM delivery decline in Sept was impacted by issues with suppression logic and ISP opt-outs, both of which have been resolved.
- Top click drivers this quarter were the Points Purchase Promotion, Global Promotion, Core MAU and Re-Engage Series

# Q3 2023 Unsub Rate of 0.26% is Correlated With Recent Opt-In Growth

12-month average unsub rate is 0.19%, which is below our benchmark of 0.20%.

# Member Average Saw Mostly Steady CTR and Unsub Rate This Quarter

- All levels saw QoQ delivery increases, in line with overall trend and correlated to recent audience growth.
  - Non-members had the most significant increase at +51.0% (+33.9 M), impacted by volume from Q3 Global Promo (25.5 M) and Project MAX (13.2 M).
  - All members saw a MoM delivery decline in September; some campaigns were impacted by the issues with suppression logic and ISP opt-outs, both of which have been resolved.
- CTRs and unsub rates for Basic, Silver and Gold were mostly steady this quarter; for upper elites, we saw MoM increases in August followed by declines in September.

- Promotions and Partner campaigns saw the most significant delivery increases QoQ and YoY, impacted by the Q3 2023 GloPro Announcement Solo, the new Campaignlette solo, increased deliveries for Uber this year, and a Hertz mailing that was not in market Q3 2022.
- METT was the only campaign type that saw increases in overall engagement QoQ and YoY.
- Highest overall CTR came from Lifecycle at 5.3%.
- Other Comms generated the most overall revenue at \$6.7 M, followed by Core MAU at \$3.4 M and Lifecycle at \$2.0 M.
  - Even with fewer YoY deliveries, Lifecycle saw an increase in bookings and revenue; Global-Local saw increases in QoQ bookings and revenue with fewer deliveries.

Financials are impacted by the email attribution tracking issues that are currently being researched.

# Q3 2023 Performance Summary

## by Campaign Type – Other Communications Only

- Other Comms made up the largest proportion of Q3 deliveries at 39.4%
  - Most deliveries were from Engagement (95.7 M), Brand (81.4 M) and Travel Inspiration (41.5 M); Informational had a larger than usual impact to overall deliveries this quarter due to the one-time Project MAX campaign (34.0 M) in July; overall YoY delivery increase of +63% was primarily driven by Project MAX and increased deliveries for Boutiques and several Brand campaigns.
- The overall CTR of 0.9% was steady compared to Q2; compared to last year it was a -0.2 pts. decline, impacted by less overall engagement YoY for the larger Bonvoy Escapes and Moments campaigns.
- The YoY bookings and revenue increases were impacted by Project MAX and E2L, both of which were not in market in Q3 2022; QoQ declines were impacted by bookings from the Decision Engine pilot in Q2.

## Why Were Launching METT 2.0

- Too many METT offers never result in a booking
- Aging METT infrastructure
- Heavy customization requiring long-term technical debt
- Availability of a (mostly) off-the-shelf solution from our existing email service partner
- Integration with other in-progress initiatives (MGP, MBOP, Taxonomy, MRW/MRDW retirement)

# Key Goals For METT 2.0

## Primary Goals

- Drive hotel revenue through bookings
- Send timely and relevant communications that drive guest action
- Provide hotels and field users with a modern, enterprise-grade, self-service, compliant B2C email marketing platform

## Secondary Goals

- Foster email engagement and support overall channel health
- Provide value for hotels' marketing investment
- Prevent hotels from seeking non-compliant, off-platform solutions
- Encourage offers that drive business KPIs (while discouraging ones that create “noise”)

# Q3 2023 Points Purchase Promo Email Engagement

- Sent ENG Announcement in Core MAU August Hero; sent INL announcement and the ENG + INL Reminders as solos in August to support the promotion in Q3 2023
- The promotion engaged a point buying audience, mostly Elite members
- Most of the clicks went to the Buy Points CTA in the solos
- Core MAU hero module click activity was consistent with August 2022 Q3 Points Promo
  - The Points Promo hero in August engaged all levels; third most popular module in August, after the Member Module and the Header this year and last year.
  - YoY comparison – this year's offer promoted "The more points you buy, the bigger your bonus (through Sep 8)." Last year's promotion featured 25% more points when you buy or gift at least 2,000 points by Sep 15.
    - Mail timing was the same YoY; last year the promotion lasted one week longer

# ACTIONABLE INSIGHTS

# Q3 2023 Actionable Insights: Core MAU

- Continue to test milestone member placement in October Core MAU across all languages to finalize assessment as to which placement drives higher click engagement; above or below the hero
- Expand milestone messaging testing in November to focus on inactive segments, points inactive and lapsed stayer status, to drive lift in stay and points-based activity
- Continue to highlight luxury properties moving forward through new hotel features and other associated brand education initiatives to drive awareness and interest for luxury brand offerings
- Evaluate engagement differences for various sub-segment levels and regions to identify content and personalization opportunities for less active segments; this includes opportunity to leverage 3<sup>rd</sup> party data to enhance messaging and content strategies for select segments

## Q3 2023 Actionable Insights

- Continue working with data teams and CX on the Adobe tracking issues that are impacting financials attributed to email.
- For elite members, continue planning for a weekly inbox mix of desired outcomes: inspire, educate, and drive bookings; look for opportunities to send Recognition emails.
- For Bonvoy Escapes –
  - As a result of the A/B creative test results, continue utilizing the long-form creative approach vs. short-form to drive more overall engagement and revenue from these mailings.
  - Consider testing dynamic destination tiles based on top-booked destinations.
- For Points Purchase Promotion and Global Promotion –
  - Continue including RAB placement across larger, relevant communications like Moments, as this approach helps drive incremental engagement in the respective mailings and effectively supports the promotions
  - Look for opportunities to test placement and creative for these RABs in future mailings.
  - Consider testing a secondary module that only messages the promotion deadline date to create a sense of urgency.

## Q3 2023 Actionable Insights

- For Demand Gen –
  - Recommend testing a geo-targeted 4-pack module in Demand Gen mailings by serving top booking destinations by region to trend engagement and financial impact.
  - Consider testing dynamic modules or a targeted solo featuring earning and redeeming opportunities in select cities.
  - Leverage 3<sup>rd</sup> party data for targeting
- For future CALA mailings, continue to monitor performance of app module for engagement patterns and download activity.
- For future RCYC mailings, test a navigation bar above the Hero that links to landing pages to help drive incremental leads and yacht bookings.

Thank You!
